

Project Name

Ainsdale Train Station, Southport

Commenced

August 2017

Duration

35 Weeks

The Project

Murraywood Construction are working with Morgan Sindall on the £2.5m Ainsdale Station, which comes from the Government's National Stations Improvement Programme. The new station will include free WiFi for passengers, more seating areas, improved information screens and waiting shelters on the platforms.

Murraywood Construction are currently completing the foundations, external works, ducting and drainage services for Ainsdale Train Station.

Scope

The scope of works is broken down into the following sections: -

- Drainage.
- Foundations.
- Ground floor slab.
- Minor brickwork package.
- Reduced level excavation.
- Reinstating to perimeter of building.
