COMPANY

PROFILE

Murraywood Construction Ltd was formed in May 1996 and based in St. Helens, Merseyside. The company is a well-established and experienced groundworks contractor and celebrated its 20th anniversary in May 2016. With a first-year turnover of almost £1.5M, business growth has escalated resulting in a best year to date in excess of £24M; and a cumulative total of over a quarter of a billion pounds.

Operating predominantly in the North West of England and North Wales, the company specialise in building and civil engineering groundwork projects of all sizes. The company currently employ approximately 95 employees, this figure often varies depending on workload.

Our flexibility in work range and scope varies largely and we are able adapt according to client needs. We feel that we operate most effectively when carrying out full groundworks packages so that we are able to plan and manage individual processes and mitigate potential interface and coordination issues. However, we are also able to carry out isolated work packages for specific elements of work.

Specific areas of expertise include:

- Excavation and installation of reinforced concrete foundations and pile caps.
- Excavation and installation of foul and surface water drainage systems including associated tanks such as attenuation, interceptor and pumped systems.
- Excavation and installation of service ducts.
- Concrete floor slabs.
- Concrete structures such as retaining walls.
- Road and car park surface preparation.
- External hard landscaping works such as kerbing, paving, street furniture etc.

We are experienced in a large spectrum of industry sectors including hotels, sporting facilities, public realm, schools, hospitals, manufacturing facilities, Commerce and retail, police headquarters and holding facilities, industrial, city centre residential, car parking etc.

OUR POLICIES & ACCREDITATIONS

OUR POLICIES AND ACCREDITATIONS

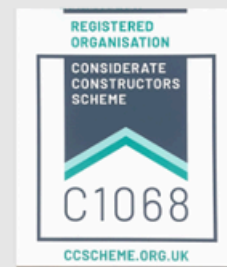

ISO Management Systems

With a holistic and systematic approach to risk management, our externally audited ISO management systems provide the basis for commitment and continual improvement in Health and Safety, Environment, and Quality. Policy making and strategic planning provide a platform to build on, developing processes to meet legal and stakeholder compliance and to achieve our goals.

Considerate Constructors Scheme

Members of the Considerate Constructors Scheme since 2013, demonstrating a commitment to reducing the impact of our operations on our neighbours. As well as continuously getting involved with community projects.

Constructionline & Achilles

Complementing our management systems, subscription to Constructionline Gold and Achilles, further bolsters and verifies stakeholder compliance in conforming with industry-recognised Safety Schemes in Procurement (SSIP).

NW Contractors Training Group

We are long-term members of North West Contractors Training Group, joining forces with other industry contractors to source and maintain good quality training for our employees, whilst participating and donating to worthwhile causes in the our communities.

Sustainability

We have been reducing our carbon footprint, reporting for four consecutive years, and setting our own targets. We are committed to using more sustainable methods of working and collaborating with our providers to source sustainable products.

Community Engagement

Improving the communities in which we work, by working with local charities, community groups, schools, and members of marginalised groups, such as the homeless, ex-offenders, and the long-term unemployed. We also offer work experience and placements to students and colleges. We are always endeavouring to create a better future for all.

Workplace Ethics

Demonstrating a proactive attitude to fairness, inclusion, and respect in the workplace and the communities we work in, where we all are respected and opportunities are offered equally.

Employee Rights

Working to our Anti Slavery Policy, Murraywood Workers are verified to work in the UK with Rights To Work taking place at first employ, all rights are respected, all are paid fairly (more than minimum wage), they are aware of their rights and can be certain they are working in a safe place. Using the CCS website, workers are encouraged to undertake the courses and webinars to get a better understanding of the issue.

Mental Health & Wellbeing

Murraywood has eight Mental Health First Aiders, trained by MHFA England. This training will continue so that there is a Mental Health First Aider on every site, these first aiders include operatives as well site management. Our aim is to have one MHFA for every eight employees. We also roll out online Mental Health Awareness Training so that everyone has an insight into this issue.

STEM Ambassadors

Murraywood has three STEM Ambassadors who work with schools and colleges in our project communities and throughout the North West. They promote construction in Primary Schools through to T levels.

Colleague Compliance

Murraywood has a dedicated training department to ensure that all of our operatives and managers are trained to the relevant and recognised levels, all carrying cards issued by CSCS, CPCS, NPORS, NRSWA, and/or City & Guilds, in addition to having continual personal development plans in place for each.

CASE STUDIES
